

MTA Subway Stations

Data Dictionary

Data Label	Data Type	Data Description
GTFS Stop ID	TEXT	The ID used for the station in the General Transit Feed Specification (GTFS), an open standard used to display public transit schedule data.
Station ID	NUMERIC	The Station Master Reference Number.
Complex ID	NUMERIC	The Complex Master Reference Number.
Division	TEXT	The division of the subway system (IRT, BMT, or IND) that the station is a part of.
Line	TEXT	The operational line of the subway system the station is located on, such as Queens Blvd, Lexington Av, or Sea Beach.
Stop Name	TEXT	The name of the subway station.
Borough	TEXT	The borough the station is in. Bx for Bronx, B for Brooklyn, M for Manhattan, Q for Queens, SI for Staten Island.
CBD	TEXT	This indicates whether or not a station is in Manhattan's Central Business District (CBD). This value is either TRUE or FALSE.
Daytime Routes	TEXT	The subway routes that serve the station during weekdays.
Structure	TEXT	The type of structure the subway station is located on or in (At Grade, Elevated, Embankment, Open Cut, Subway, Viaduct, etc.). For stations part of a complex, this indicates the construction type for that part of

		the complex only. Some complexes have more than one construction type across their constituent stations.
GTFS Latitude	NUMERIC	The latitude for the centroid of the station
GTFS Longitude	NUMERIC	The longitude for the centroid of the station
North Direction Label	TEXT	The northbound direction for lines stopping at the station, such as Astoria - Ditmars Blvd, Uptown & The Bronx, and Manhattan. This is blank if the station is the northern terminal of a line.
South Direction Label	TEXT	The southbound direction for lines stopping at the station, such as Downtown & Brooklyn, Canarsie - Rockaway Parkway, and Brighton Beach & Coney Island. This is blank if the station is the southern terminal of a line.
ADA	TEXT	0 if the station is not ADA-accessible, 1 if the station is fully accessible, 2 if the station is partially accessible.
ADA Northbound	TEXT	0 if the station is not ADA-accessible in the northbound direction, 1 if the station is fully accessible in the northbound direction
ADA Southbound	TEXT	0 if the station is not ADA-accessible in the southbound direction, 1 if the station is fully accessible in the southbound direction
ADA Notes	TEXT	Notes on the direction a station is accessible in if it is only accessible in one direction, such as Manhattan-bound only, Downtown only, and Uptown & The Bronx local only.
